Subject: Question for Tala: Comments on draft risk profile POPRC-Dechlorane Plus

Hi Tala,

Laura forwarded the draft risk profile for dechlorane plus. Comments would be due back to the working group **by Jan. 27.**

Given RAD's workload, I wanted to check if it makes sense to ask them to review now. Otherwise, perhaps Laura could reach out to ORD and see if they're able to.

Subject: FW: POPRC-Dechlorane Plus: First draft for comments by working group members by 27 Jan 2020

Hi Alison and Stephanie,

As I noted in a previous update for the EAD general, the Stockholm Convention technical committee (POPRC) decided to go ahead with the preparation of a risk profile for Dechlorane Plus. The first draft of the risk profile is attached. I am checking with you to see how we should handle this. I know there are not a lot of resources for reviewing the risk profile, but it can be helpful to get comments in during the intersessional period instead of or in addition to trying to raise concerns during the POPRC meeting.

Also, ORD (Lynn Flowers and others) helped to review the risk profile for PFHxS, so maybe they would be willing to review this one as well.

Thanks, Laura
